Please:

- Complete all sections of this form.
- Schedule medication outside care/school hours wherever possible.
- Be specific: **As needed is not sufficient direction for staff members—they need to know exactly when medication is required.**
- Nominate the simplest method. **For example: Oral or 'puffer' medication is much easier to arrange than a nebuliser.**

Please note that education and child/care and community services workers:

- Accept only medication which has been ordered by a doctor and is provided in the original, fully labeled pharmacy container
- Do not monitor the effects of medication as they have no training to do this
- Are instructed to seek emergency medical assistance if concerned about a person's behavior following medication.
